- 6- lay = pone, deposita
- 7- spend = pasar
- 8- breathe = respirar
- 9- smallest = el mas pequeño
- 10 – biggest = el mas grande

# Let's read

## Complete Reading the text

### Seals

Seals live all over the Earth. You can find them in the Atlantic Ocean and the Pacific Ocean.

Seals can spend a lot of time in the sea searching for food. They can hunt fish, octopuses, crabs, and krill, but they can't hunt birds. There are 33 different kinds of seals. The smallest seal is the Galapagos Fur Seal, which weighs only about 63 kilograms. The biggest is the Southern Elephant Seal, which can weigh up to 4,000 kilograms!

- 1- seals live in the

---

- 2- Seals can

---

- 3- The smallest seal is

---

- 1- Atlantic ocean and pacific ocean
- 2- spend a lot of time in the sea and can hunt (cazar) fish, crabs etc.
